### Tasting Notes

Spring is in the air, so make sure this Grignolino rosé finds its way into your glass. Every year we produce a limited amount of this warm-weather tippie, a perennial favorite since our founding in 1961.

This rosé is so expressive of the Grignolino varietal, it's like tasting the ripe grapes straight off the vine. With its vibrant pink hue and mouthwatering hints of wild strawberry and orange zest, this wine is absolutely refreshing. Perfect for those lazy afternoons on the front porch when you can slow down to appreciate life's many pleasures.
